In the rugged Scottish Highlands, where the wind howls and the rain lashes down, Conor Mark Jameson embarked on a year-long search for the elusive goshawk. A bird of prey known for its intelligence and ferocity, the goshawk is one of the most challenging birds to find and observe in the wild.

Jameson's journey took him through some of the most beautiful and remote landscapes in Scotland. He followed the goshawk's tracks through dense forests, up towering mountains, and across windswept moors. He spent countless hours in hiding, waiting for a glimpse of the bird.

Along the way, Jameson learned about the goshawk's hunting habits, its social behavior, and its place in the ecosystem. He also learned about himself and his own relationship with the natural world.

Looking for the Goshawk is a beautifully written and evocative memoir that captures the thrill of the chase and the wonder of the natural world. It is a book that will appeal to anyone who loves nature, birds, or adventure.
