Print length : 61 pages

Each puzzle in Number Darts is a dartboard with numbers written on the segments. Your goal is to hit the target number by adding, subtracting, multiplying, or dividing the numbers on the dartboard. For example, if the target number is 20 and the numbers on the dartboard are 5, 10, 15, and 20, you could solve the puzzle by adding 5 and 15.

Number Darts is a great way to improve your mental maths skills, and it's also a lot of fun! The puzzles are challenging, but they're also achievable, and you'll feel a great sense of accomplishment when you solve them.

## Benefits of Number Darts

- Improves mental maths skills

- Enhances problem-solving abilities
- Boosts concentration and focus
- Provides a fun and engaging way to learn
- Suitable for all ages and skill levels

## **How to Play Number Darts**

To play Number Darts, you will need a dartboard and a set of numbers. You can use a real dartboard or you can draw one on a piece of paper. The numbers can be any numbers you want, but they should be a mix of positive and negative numbers.

To start the game, place the numbers on the dartboard. Then, choose a target number. The target number can be any number you want, but it should be a challenging number to hit.

Once you have chosen a target number, start throwing darts at the dartboard. You can throw as many darts as you want, but you can only use each number on the dartboard once.

If you hit the target number, you win the game! If you don't hit the target number, you can try again.

## **Number Darts Puzzles**

Here are a few Number Darts puzzles to get you started:

- Target number: 20, Numbers: 5, 10, 15, 20
- Target number: 30, Numbers: 5, 10, 15, 20, -5

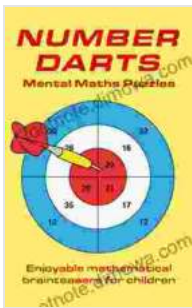

- Target number: 40, Numbers: 5, 10, 15, 20, -5, -10

Can you solve these puzzles? If you need help, you can check out the solutions at the end of this article.

Number Darts is a fun and challenging way to improve your mental maths skills. The puzzles are suitable for all ages and skill levels, so everyone can enjoy them. So what are you waiting for? Grab a dartboard and a set of numbers and start playing Number Darts today!

## Solutions to the Number Darts Puzzles

1.  $5 + 15 = 20$
2.  $10 + 15 - 5 = 30$
3.  $15 + 20 - 5 - 10 = 40$
