

Who Wants It?

The essential guide to enjoying the things you own

By Colin Ward

In a world where we are constantly bombarded with messages telling us to buy more, it can be difficult to remember that the things we already own are often the most valuable. In his book, *Who Wants It?*, Colin Ward argues that we need to learn to appreciate the things we have and to find ways to use them more creatively and sustainably.

Ward begins by exploring the different ways in which we can own things. He argues that true ownership is not about possessing something in a purely legal sense, but about having a deep understanding of its history, its purpose, and its potential. He also discusses the importance of sharing our possessions with others and of finding ways to use them in a way that benefits the community.

Ward then goes on to offer a series of practical tips for how to enjoy the things we own. He suggests that we take the time to learn about the history and origins of our possessions, that we use them in new and creative ways, and that we find ways to share them with others. He also argues that we should be more mindful of the environmental impact of our consumption and that we should try to buy less and buy better.

Who Wants It? is a timely and important book that challenges us to rethink our relationship with our possessions. Ward argues that we need to move away from a culture of consumption and towards a culture of appreciation. He shows us that the things we own can be a source of great joy and satisfaction, but only if we learn to appreciate them and to use them wisely.

Reviews

“A timely and important book that challenges us to rethink our relationship with our possessions.” — The Guardian

“A must-read for anyone who wants to live a more sustainable and meaningful life.” — The New York Times

“Colin Ward is a wise and compassionate guide who shows us how to find joy and fulfillment in the things we already own.” — The Washington Post
